Bon dia,

Acabo de rebre un interessant correu comercial d'Infogr.am (com la majoria de vosaltres) sobre com consultem les planes web. Reprodueixo el paràgraf:

Studies [3] show that most people spend less than 15 seconds on a page and that [only 10%](#) [4] of visitors will actually read an article from top to bottom. Data visualization has proven to be one of the best ways to keep readers on your site and increase advertising exposure.

Si teniu curiositat llegiu els dos articles (una mica llargs però aclaridors).
